

# 7 Ingredients for a Successful PI Awards Application

## 1. Check Your Status

Make sure you're in good standing with ChemStewards and that you are up to date on all your performance obligations.

## 2. Gather All Your Data

Work with your team and pull together your stats to identify the most important metrics.

## 3. Be Prepared

Ensure you have the proper documentation and are able to complete your checklist at any time.

## 4. Tell Your Story

Take note of important activities in your facility that can lead to an example of a major improvement at your plant.

## 5. Expand, explore and elaborate

List all important details, connect the dots for the judges and try to make your story unique.

## 6. Go Above and Beyond

Focus on your strengths and overall improvements where the judges can recognize your accomplishments for the year.

## 7. Double Check Your Work

Proofread, proofread, proofread! Always make sure to have a second set of eyes on your work before submitting your application.
