Our technology is who we are

What are Revtech's applications & customer benefices?

Where is Revtech based?

Which added values are generated by Revtech?

Our technology is who we are

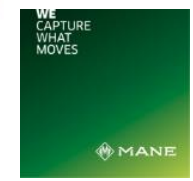

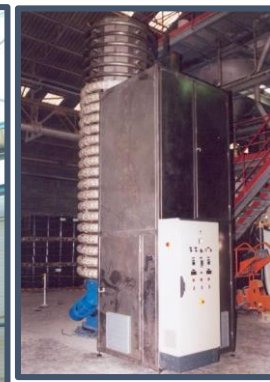

- Basis:
 - ✓ Tailor-made solution for bulk solids
 - ✓ Electrical Heated Reactor with atmosphere control
 - ✓ Turn-key project

What are Revtech's applications & customer benefices?

- Market:
 - ✓ **Specialty Chemical – Fine Chemical – Biomass**
- Applications:
 - ✓ **Thermal treatment of powders & bulk solids**
 - ✓ **Thermal desorption - Steam stripping**
 - ✓ **Polymerization**
 - ✓ **Gaz/Solid reactions**
 - ✓ **Calcination**
 - ✓ **Impregnation of carrier by Maillard reaction**
 - ✓ **Purification - Pasteurization**
- 3 key benefits:
 - ✓ **Continuous, homogeneous and even heat treatment**
 - ✓ **Very energy efficient (90% usable power)**
 - ✓ **Reduced process time**

What are Revtech's applications & customer benefices?

Created in 1997 by Martin MITZKAT

Chicago IL USA

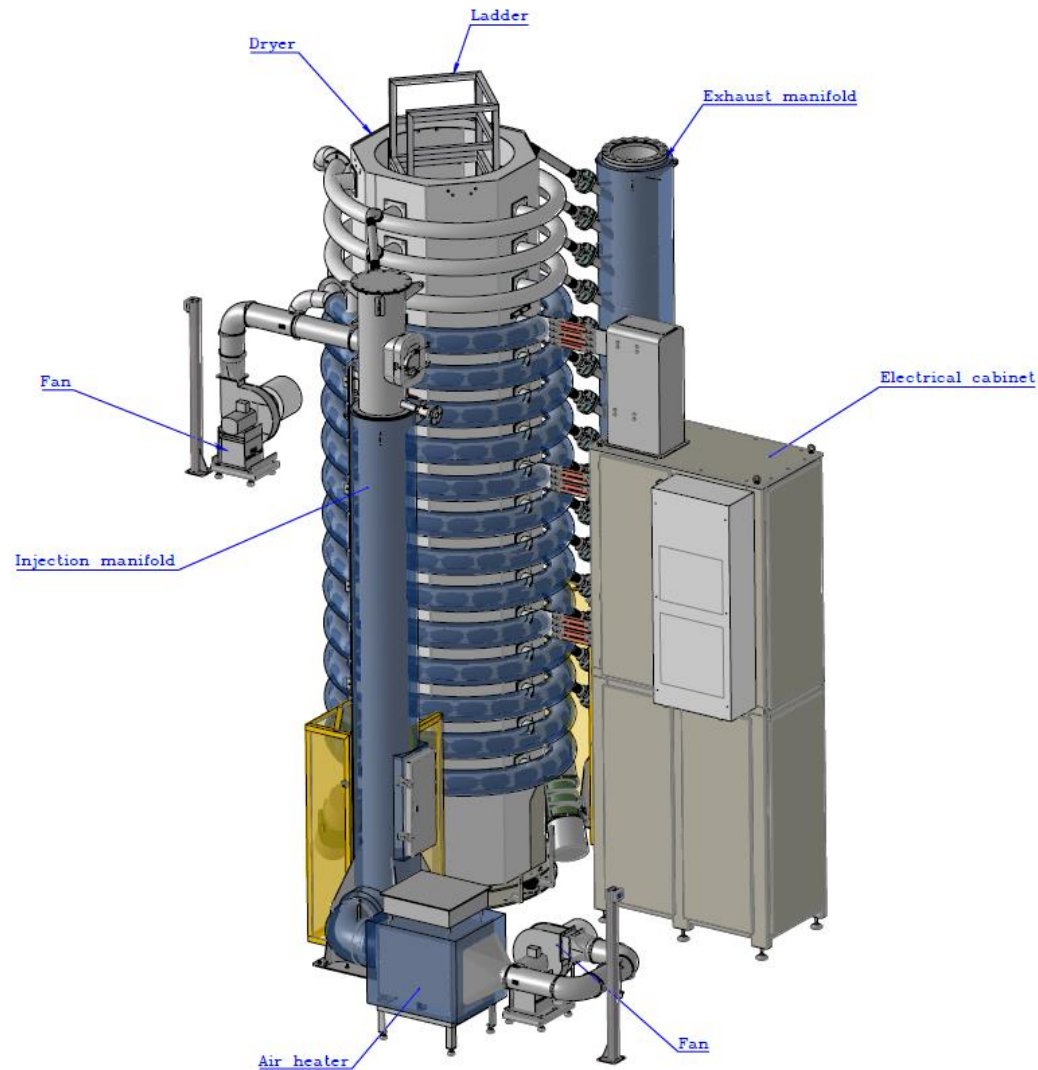

Lorient S/ Drôme
South-East of France

Where is Revtech based?

ECHELLE 1 : 25

Which added values are generated by Revtech?

- Number of processes not discovered yet:
 - ✓ One effect of “the cloak and dagger nature of the chemical industry”: our sales leads and clients extend the field of our technical possibilities once they considered it
- Indirect impacts:
 - ✓ Higher quality than expected
 - ✓ Increases the industrial productivity
