

Strategic Industry Leadership

SOCMA members are a unique group of chemical companies that hold themselves to a higher standard from a safety and regulatory aspect. We are more successful as a result of our membership. Customers know SOCMA members do it right!

Companies need to understand SOCMA is not only for toll manufacturers; all specialty chemical companies benefit from membership, and we as an industry can do more if we unite.

David Anderson
Chairman, Colonial Chemical

SOCMA is big enough to make a difference in DC, but "intimate" enough to develop meaningful relationships with industry partners.

Dave Mielke
President & CEO, ChemDesign

New Era for Specialties

SOCMA is the driving force behind the specialty chemical industry, fostering connections, expertise, and advocacy to help you navigate a dynamic and evolving market. Our members drive the innovation that powers countless products essential to daily life, from advanced materials to life-saving pharmaceuticals.

Be part of a community that champions your contributions, builds strategic partnerships, and engages with policymakers to amplify your voice and advance the industry. Together, we ensure that specialty chemistry continues to shape the future and meet the ever-changing needs of society.

Gateway to Growth

SOCMA, the only U.S. trade association laser focused on the specialty chemical sector, is driving the resurgence of domestic manufacturing in North America, providing tools and resources to make your business thrive:

Lead Generation

Connect with North American business partners and localize your supply chain through our Lead Sheet Service and Member Services Directory.

Business Intel

Stay ahead of the curve with real-time insight and analytics on critical trends and drivers that impact your business.

Policy Influence

Engage in active dialogue with policymakers and key influencers to ensure your priorities and concerns are reflected in policies shaping our industry's future.

Driving Business Connections

In this rapidly evolving business landscape, adapt and diversify your supply chain at the SOCMA Show. With a priority on the growth of the North American specialty chemical sector, the SOCMA Show delivers unparalleled opportunities to showcase your expertise and develop strategic partnerships with leading suppliers, buyers and industry experts.

Held in Q1, the SOCMA Show provides a business-rich environment and access to:

1,200+ KEY DECISION-MAKERS

160+ EXHIBITORS

20 HOURS OF DEDICATED NETWORKING ACROSS THE 2-DAY EVENT

Transforming Chemical Operations

In preparation for the renaissance of North American specialty chemical manufacturing, forward-thinking companies are investing in their employees. Prepare your workforce and showcase your company's commitment to environmental, health and safety excellence through SOCMA's industry-leading manufacturing and operations programs.

- ⊙ **ChemStewards®:** Having trained more than 3,500 operators, this modernized training program sets the foundation for safety as you bring in new staff to support increased demand.
- ⊙ **ChemOps Training:** Drive continuous improvement of your operating systems through SOCMA's EHS management program that's been an industry standard for 20 years.
