VALENTINE  CHEMICALS

# WHO IS VALENTINE CHEMICALS

## **Our Mission**

Provide high quality customer production of liquid and dry industrial chemicals

## **Our Vision**

Become recognized as the best custom chemical contractor in the U.S.

## **Our Values**

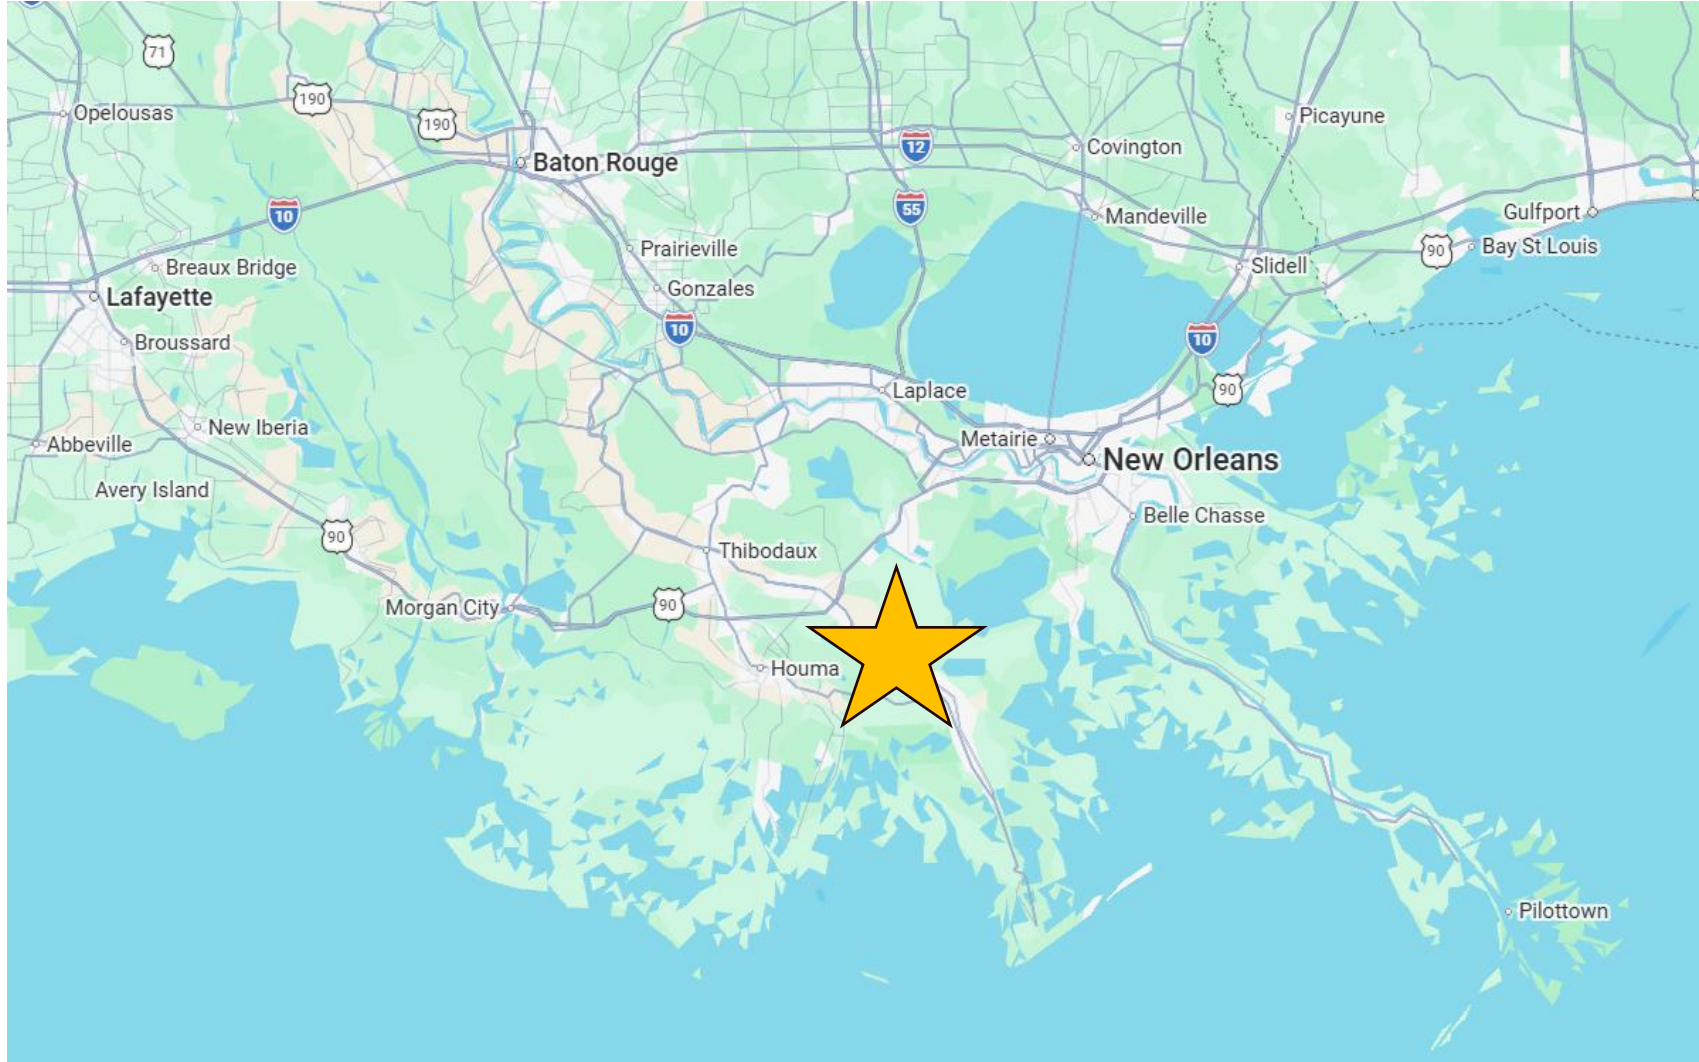

Confidentiality: We are committed to safeguarding our customers' intellectual property and product integrity. Physical and digital security is built into our operations, and we provide traceability and full transparency.

Stability: With no outside investors and minimal employee turnover, we're built for long-term partnerships.

Focus: With low overhead, fast decision-making, and strict process discipline, we deliver the kind of agile, efficient partnership that helps customers stay competitive.
